IRREGULARS LEAVE MEXICO
CITY WHEN DICTATOR SENDS
FORCE TO CRUSH THEM.

DEAD ARE BURIED AT TAMPICO

Victims Begin Untangling Local Government Left by Federalists—Americans Urged to Return by Commander.

Vera Cruz, May 15.—A courier who came through from Paso del Macho, the headquarters of the Mexican army in front of Vera Cruz, brought word that troops quartered at the Piedad barracks, Mexico City, revolted against Huerta in favor of Villa. Several officers who refused to join the mutineers were shot down. The mutineers fled toward the west to join the Zapatistas in the Ajusco.

Rushes Force to Quell Riot.
Immediately upon receipt of news of the revolt a detachment of General Blanquet's Twenty-ninth battalion, carrying machine guns with them, was dispatched to the barracks.

The Twenty-ninth battalion is the one that turned against President Madero on February 18, 1913, and made it possible for Huerta to become dictator.

Rebels Bury Dead at Tampico.
Tampico, Mexico, May 15.—The constitutionalists in Tampico are burying their dead and straightening out the tangle of a local government.

Every hospital is filled with wounded men and the dead lie on cots beside men who are dying. Dead men lie in the trenches where the federalists made their last stand and which were stormed and taken by General Gonzales and his men.

No Americans or other foreigners were killed or wounded during the battle which preceded the fall of Tampico.

The cruiser Des Moines and the gunboat Dolphin steamed up the Panuco river and are anchored off the wharf at Tampico. Rear Admiral Mayo is on board the Des Moines.

Official information given by General Gonzales places the number of constitutionalists killed during the fighting at 34. He said that 128 of his men were wounded. General Gonzales estimated the number of federalists killed at 289 and more than 600 wounded.

Military Ruler Flees.

Brigadier General Zaragoza, military governor of Tamaulipas, and in chief command of the federal forces in Tampico, left this city in the morning when it became evident to him that he could no longer resist the steady approach of the constitutionalists or fight them off. When he left on a special railway train for San Luis Potosi, carrying with him a strong military escort, arrangements were made for the evacuation of Tampico by his forces. When the trenches were abandoned the federal ammunition depot was blown up.

Promises to Maintain Order.

General Gonzales said:
"There will be no lawlessness in Tampico now. Such acts as characterized the attitude of Huerta's creature's in their relations with foreigners is not characteristic of the constitutionalists.

"If the foreigners who left here on account of the lawlessness which occurred during Huerta's rule of Tampico will return now they will be given every guarantee of protection and safety.

"The constitutionalists welcome all Americans and other foreigners who come to us to take part in our commercial life."

U. S. Ships Follow Huerta's Vessels.

Washington, May 15.—A dispatch from Rear Admiral Mayo at Tampico announced that the Mexican federal gunboats Bravo and Zaragoza, one of them towing the tug Tampico, had left the Panuco river and steamed southward. They were followed by the cruiser Tacoma and the destroyers Warrington and Henley. It is believed here that the gunboats are making for Tuxpam, about one hundred miles down the coast, where they probably will discharge the soldiers of the Tampico garrison. With replenished ammunition the vessel may return to the mouth of Panuco and attempt to maintain a blockade.

25,000 With Villa.
Torreon, Mex., May 15.—The mobilization of rebel troops for the campaign against Saltillo came to a close at night when the last unit left Torreon, accompanied by General Villa and staff. This concentration has brought together an army of 25,000 men, 15,000 cavalry, 7,500 infantry and 2,500 artillery to test the strength of the federal stronghold.

Villa has given instructions that the movements of his army be kept secret for the present.

Mrs. Ira W. Lewis is ill.

FORMER DIXON GIRL TALKS ON MEXICO

FORMER STUDENT OF DIXON COLLEGE HAS BEEN A MISSIONARY IN MEXICO—FLED FOR LIFE.

SHE BLAMES AMERICAN CAPITAL

Says Financial Raiding of Country and Ignorance of the People is at Bottom of Present Trouble.

Miss V. Bentline addressed the Foreign Missionary Society of Fourth Street M. E. church in Sterling Thursday on the subject of "Present Conditions in Mexico and Their Relation to Missionary Work."

Miss Bentline, who has but recently returned from the troubled country, has an intimate knowledge of the conditions existing in Mexico and of the people, gained from several years spent there as a missionary. She says that the feeling toward the American people is intense and borders on outright race hatred. She herself was compelled to flee from the Mexican capital because of the anti-American sentiment. While on the streets of Mexico City Miss Bentline was pursued by a mob shouting in broken English, "Kill Americans." She succeeded in eluding the mob and fled by train from the city, leaving all personal property behind. The train left the capital unmolested, as it was accompanied by several government officials, but in the country it was fired upon by a band of hate-crazed greasers who searched the coaches for the Americans. All on board the train claimed English citizenship and were unharmed.

The train proceeded to the coast without being molested further and Miss Bentline came thence to Sterling. She is well acquainted here, having at one time been a student at Dixon college.

Miss Bentline says: "The trouble with Mexico is caused mainly by the ill treatment and exploitation of the Mexican people by unscrupulous capitalists of the United States. They enter Mexico merely for the purpose of using its resources for their own private interests, and their treatment of the Mexicans is shameful. Another cause of the anti-American feeling is the absolute ignorance of the people as a whole and their blind following of dishonest leaders."

Y.M.C.A. IS NEAR TO RUIN BY FIRE

FIERCE FIRE DISCOVERED BURNING IN BASEMENT THIS AFTERNOON.

CONSIDERABLE DAMAGE DONE

Fire Department Responded Quickly to Alarm and Saved the Building From Utter Destruction.

The Dixon Y. M. C. A. was threatened with destruction at 1:45 this afternoon when fire, originating from an overheated smoke pipe leading from a water heater through a wooden partition, was discovered burning fiercely in the basement of the building.

The odor of burning wood was discovered by one of the roomers in the dormitories in the third floor of the building and he immediately notified Sec. A. Biley, who investigated. Following the discovery of the fire the department was summoned and soon three streams of water were working effectively on the blazing wood which by the time the firemen arrived, was a mass of flames.

Fortunately the blaze was kept in the basement and soon extinguished, although the entire building was filled with smoke. The damage cannot be estimated until the water is pumped out of the basement and an inspection made, as it is impossible to determine whether or not the heater and boiler are damaged. The work in the basement was badly burned and it is feared the gymnasium floor has been ruined by the smoke and water. The association carries ample insurance to cover the damage.

(Associated Press.)

North Allerton, Eng., May 15.—Lieut. Empson and Sergt. Dudmore were killed during a combination flight by a squadron of the British military aviators from Scotland to Salisbury Plain.

Lieut. Empson, who was trying to land his machine during a dense fog, misjudged his distance and struck the ground so sharply that the machine was overturned and the occupants pinioned beneath the motor and crushed to death.

ELEVEN MEN KILLED IN TERRIBLE BLAST

THE MEXICAN CRUDE RUBBER WORKS AT DETROIT IS WRECKED.

(Associated Press.)

Detroit, May 15.—Ten men were killed outright and three terribly injured in an explosion this forenoon which blew the plant of the Mexican Crude Rubber Co. to pieces.

There were 25 employees working in the plant at the time and 11 survivors are accounted for. It is believed gasoline was the cause of the disaster. Most of the victims were skilled mechanics.

One workman's body was blown through the side of the building and three others were burned beyond recognition. Three who have been removed to hospitals are not expected to survive.

Later—it became known this afternoon that 11 men were killed and two more bodies are said to be in the ruins and another is dying, while three more are thought to be fatally injured. Although gasoline is believed to have been the cause of the explosion, the direct cause will never be known.

PEACE MEETING IS POSTPONED 2 DAYS

FURTHER POSTPONEMENT MAY BE NECESSARY—MAY CONFERENCE IN WASHINGTON FIRST.

CABINET MEMBERS HOPEFUL

Federal "Fleet" at Tampico Has Deserted Lost City and Proceeds to Puerto, Mexico.

(Associated Press.)

Washington, D. C., May 15.—The opening of peace negotiations at Niagara Falls between the Mexican and United States commissions has been postponed from May 18 to May 20, at the request of the Brazilian minister, in order that the Mexican delegates enroute from Key West may not be unduly hurried.

The three South American envoys today paid their formal visit of farewell to President Wilson before their departure for Niagara Falls. They were received in the blue room by the president, whose military and naval aids were dressed in full uniform. President Wilson expressed the hope that before the mediators return to Washington they will have found a satisfactory solution of the problem.

The envoys and American representatives returned to the White House this afternoon for a conference with Mr. Wilson. It is believed that the meeting was prompted by further reason for the postponement of the formal opening of the Niagara Falls conference.

Confidence that the mediation efforts will be successful was expressed by members of the cabinet after today's meeting.

It is thought possible that the Mexican representatives will meet the mediating envoys in Washington and that preliminary conferences will be held in the American capital before the entire peace party proceeds to Niagara Falls, Can.

MRS. THOMPSON DIED AFTER BRAVE STRUGGLE

MRS. JAS. H. THOMPSON, PROMINENT CLUB WOMAN OF DIXON, HAS PASSED AWAY.

FUNERAL WILL BE ON SATURDAY

Mrs. Thompson Had Wide Acquaintance and Was Beloved by All Who Knew Her—Died in Hospital.

Although it has been known for a week past that her condition was most unfavorable the many friends of Mrs. James H. Thompson were shocked when the sad news that she had passed away at 6:10 o'clock Thursday evening reached the homes of the many who knew and loved her. Mrs. Thompson's passing followed a remarkable fight for life extending over many days, during which time and time again the hopes of those who watched over her were revived as she bravely rallied from many sinking spells. The months of sickness which preceded her being taken to the hospital, however, had their effect and her spirit gave up the unequal fight at eventful Thursday.

The funeral services for this popular and beloved lady will be held at the home of her son, W. C. Thompson, 1309 Third street, at 3 p. m. Saturday, Rev. F. D. Altman, pastor of the Lutheran church, officiating, and with burial at Oakwood.

Obituary.

Catherine J. Swarthout was born at Lohman, Laverne county, Pa., on Dec. 10, 1849. She was the eldest daughter of Elijah and Elizabeth Swarthout, whose family came to Illinois in 1856 and settled in Wyoming township, this county, their homestead being about two miles west of Pawpaw.

On March 28, 1867, she was united in marriage to James H. Thompson and they continued to reside in Pawpaw until 1886, when they removed to Dixon. This city has been their home since that time until last October, when they moved to Fayetteville, Ark., where Mr. Thompson was made superintendent of the National cemetery.

She is survived by her sorrowing husband, two sons, William C. and Richard J. Thompson, and three daughters, Mrs. W. B. McMahon and Mrs. Henry Rector of Dixon and Mrs. R. H. Spratler of Beloit, Wis.

Mrs. Thompson was a remarkable and brilliant woman. Her home life was such as to make the home the haven of her husband and children, while her activities in intellectual circles of the city were productive of much good. She was a member of the Phidian Art club, the Dixon Woman's club and the Ladies of the G. A. R. Her friendship was extensive, and in all circles where she was known sorrowing friends will mourn her passing and will condole with the bereaved husband and children in their hour of sorrow.

BOYS WILL MEET TO ARRANGE TRACK MEET

ATHLETES WILL GATHER AT Y. M. C. A. BUILDING AT 10 A. M. SATURDAY.

A meeting of boys of the grades of the Dixon schools who are interested in outdoor athletics will be held at the Y. M. C. A. Saturday at 10 a. m. at which time, if attendance and interest are sufficient, arrangements will be made for a grammar school track meet, to be held soon. The Y. M. C. A. officials had hoped to promote a big event of this nature but for various unavoidable reasons work on this scheme had to be abandoned. However, a number of athletically inclined lads have asked that a meet be held and accordingly the boys will be given an opportunity to show whether they want such an affair or not.

CHARGES AGAINST STEWART BOYS IS CHANGED BY COURT

MAYHEM CHARGES AGAINST ALL BUT BORNERT DISMISSED BY JUDGE BAUME.

STATE RESTS ITS CASE

Riot Charge Against Kirby Also Dismissed—Considerable Argument Over Case.

It was necessary to summon and examine 33 talesmen before the jury was secured late Thursday afternoon to hear the evidence against the five Stewart young men who were placed on trial in the circuit court on the charges of mayhem and riot. The following is the complete jury as finally accepted by counsel for both sides and before whom the taking of evidence was begun:

B. S. Schildberg, Dixon, Harry Currens, Nachusa, T. B. Nicholson, Amboy, Glenn Rosecrans, Ashton, J. W. Hoyle, Dixon, E. M. Goodsell, Dixon, Fred Henry Jr., Wyoming, Lee Weaver, Dixon, Frank Glessner, South Dixon, I. F. Edwards, Dixon, J. E. Traber, South Dixon, Scott Morris, Dixon.

The state started its case yesterday afternoon and continued this forenoon, the following witnesses having been examined at noon today: Ed. Hodne, who is the complainant; Carl Sendwig, Carl Hageness, Simon Wichners, Wm. Craddock, M. Kaufman, E. T. Corwin.

Change in Charges.

Just before the noon recess Atty. Erwin for the defendants moved that the case be taken from the jury, alleging that there was no evidence of mayhem, which is defined by the statutes as "intentional" attempt to disfigure one. The attorneys spent some time in arguing the question before Judge Baume and many authorities were presented, at the conclusion of which Judge Baume ordered that the counts of mayhem against all but Martin Bornert be dismissed and that the riot charge against young Kirby also be dismissed.

The state rested its case at the afternoon session and the defense began the presentation of its evidence.

Sentence of Month.

After they had been sentenced to a month in prison on a charge of disturbing the peace by camping on the doorsteps of Sir Edward Carson and Lord Lansdowne, "General" Mrs. Drummond and Mrs. Dacre Fox, famous English suffragettes, became so violent that it required eight policemen to drag them to their cells.

BOY CONFESSES TO HORRIBLE MURDERS

HARLEY BEARD CAUGHT IN CHICAGO AFTER BUTCHERING THREE PEOPLE IN OHIO.

(Associated Press.)

Chicago, May 15.—Harley Beard, age 18, was arrested here today and confessed to the murder of three people on a farm near Ironton, Ohio, last Wednesday. The affair is one of the most ghastly in the annals of crime.

The bodies of Mrs. Dennis Massie, age 75, her son Robert and daughter Mary, both past 45, were found murdered in their country home.

Mary Massie was found in the kitchen of the home. Her hands were tied behind her back and her throat had been cut. The son, Robert, lay in the back yard with his head battered in and the mother was found in the front yard with her throat cut. The police say the daughter had been attacked.

St. Mary's parochial school baseball team of this city defeated the St. Mary's team of Sterling Thursday afternoon, 2 to 0, in an exceptionally well played game of the national pastime at Athletic park in this city. T SHOW STERLING FINER BASEBALL

BOYS FROM DOWN THE RIVER TO GET INSTRUCTION FROM DIXON HIGH SCHOOL.

Local baseball fans are exhibiting great interest in tomorrow's schedule contest between the Dixon union high school team and the joint Sterling high school-Y. M. C. A. team. This will be the first meeting of the rivals this season and the Dixon boys anticipate showing the boys from the village at the other end of the interurban line a few things about the national game that they may not have known existed this side of the leagues. The game will be started at 3 o'clock sharp and as the regular Dixon lineup will be in the game a good game, which will be worthy of liberal patronage, may be assured.

LEAGUE SEASON TO OPEN LATER

MOVEMENT STARTED FOR OPENING LEAGUE SEASON MAY 1.

New York, May 15.—It is quite likely that the regular baseball season will open around May 1, next year and in all future years. And it's also quite likely that hereafter the organized major league magnates will stop the little practice of trying to garner extra shekles by staging exhibition games in their home towns before the season opens. The poor attendance at most of the opening games this year, and the luke warm interest that has been shown in base ball up to the first of May, finally has convinced magnates that although the fans love the national game, they love their health just a little bit more, and refuse to be present in large numbers to the games that are played in the raw, chilly days of April.

Fans Advocate Later Opening
For many years the fans have advocated a later opening. They have argued that if the league opened around about May 1, a 154 game schedule still would be possible by reason of shifting the closing season date from around October 6, to October 21 or so. But the moguls, with a proud and haughty air, inquired, "who's running this here pastime anyway?" and went right ahead and opened the season at a time that suited them—which was around about April 14.

The fans stood for it until this year. Then they balked. They decided that they could see just as good a ball game in May or June as they could see on the opening day or any day during April, and not run such a chance of contracting pneumonia and a few other ailments one gets when one sits out in the open for a couple of hours and tries to keep warm on hot dogs and peanuts.

The magnates now seem to see the error of their ways, and it is said they have tentatively decided to open the season hereafter around May 1 when it is almost a certainty that the weather will be balmy.

To Stop Exhibition Games.
The magnates have learned another lesson, too. That is with regards to exhibition games. In the last two or three years these money-mad persons figured that it would be a nice little lure gathering stunt to stage a few exhibition combats in their home towns before the regular season opened. But they are poor mathematicians. In the first place the fans didn't turn out in any quantities to see these games, and in the second place, it was found that when the regular season did open that the exhibition games had taken away much of the fans base ball appetite. As a result the opening day crowds have been disappointingly small.

Postponing the opening day of the season until May 1, and having it conclude about October 20, no doubt would bring bigger returns for the moguls. The weather up to the latter part of October usually is mild and pleasant. But during April, practically every club in the league suffers from three to seven postponements on account of rain, wet grounds or cold weather.

Later in the season these games are played on double headers. A double headers program usually draw an extra crowd, but it rarely brings enough extra people to make up for those who have attended the regular game, had it not been postponed.

ELECTROCUTED BOY'S BODY LAYS HOURS ON WIRE

Pearl Enos of Bloomington, son of Engineer Fred Enos, was electrocuted Wednesday night when he climbed an electric light pole in the city and came in contact with the wire of the electric system and received 3000 volts, which killed him instantly. The body of the lad hung in mid-air supported by the wire and cross arm of the pole for over an hour before it could be removed. Considerable delay in getting the current turned off created great excitement and big crowds gathered in the street where the tragedy occurred.

PRESENTATIONS

Red McGhee says:

It always hits my funny spot when some big fandom idol's got an anniversary, an' his admirin' clan chips in an' buys cuff but tons or a pin to show their loyalty. A delegation is picked out an' then they settle on some lout to pull the glad stuff spiel. The star lets on that he ain't wise—he's gotta show the right surprise or else he guns the deal.

Well, when it comes his turn t' bat he starts out fer the plate an' that's the signal fer the gang. The delegation falls in line an' follows him. Umps gives the signal to let the game go hang. Then everybody sheds his lid, each player romps up like a kid—they crowd around like rats. An' then the star he bows an' scrapes, the delegation grin like apes an' climb back 'neath their lids.

The guys a-squatin' in the stands get up an' yell an' clap their hands, not knowin' what about.

The game goes on. The star is fussed. He tries the outfield fence to bust, but usually strikes out. He gets the haw-haw from the crowd, slinks toward the bench, not over-proud, an' very happy—Not!

An' then the fans go out an' buy a sportin' extra just to try an' find out what he got.

LOOK around and see the farmer who has money in the bank and who buys another quarter-section every few years. See his farm—it is fenced hog-tight. What is good for him is good for you. Enough feed is wasted on the average quarter-section of unfenced fields to feed a large drove of hogs.

Any American Fence dealer will quote you figures that may astonish you on fencing your farm with heavy, hog-tight fence. You have no idea how little money it takes, considering what you will actually save.

Big Meeting of Womens Clubs Closed Yesterday.

The big meeting of Womens clubs held at Sterling on Wednesday and Thursday ended yesterday after one of the most interesting and profitable conventions of the Federation, ever held in that city. The meetings were held in the Congregation at church and the attendance of delegates and visitors was large, the total enrollment of voting delegates being forty-four.

The programs on both Wednesday and Thursday were of excellent nature and afforded much pleasure to all attending. Addresses by Mrs. Frederick Dow, of Chicago, State President, and Mr. John Z. White, of Chicago, were very instructive and delighted the audience very much. The addresses were on live questions and were followed up by exceptionally fine musical programs which were rendered by Sterling's favorite vocalists and organist.

The following is a list of delegates attending:

Amboy Woman's club.—W. S. Frost, Jr., Miss Mary Burnham.
Byron Woman's Club.—Mrs. Claudine Bunn, Mrs. M. T. Leary.

Stillman Valley Woman's Club.—Mrs. Laura Hurd, Mrs. Ellen Brown.
Morrison.—Mrs. Charles Bent, member of the board. Mrs. H. H. Green, Chairman Legislative Committee.

The address of Welcome by Mrs. Charles Sagie made all delegates feel that their presence was a delight to all. It was responded to by Mrs. Burnham, of Dixon, who also conducted the business of the session with grace and dispatch.

At the conclusion of the business session, the doors of the Sunday school room were thrown open and the convention invited to enjoy a social hour, to rest and become acquainted with each other.

A long table draped in snowy damask and most beautifully and artistically decorated with festoons of smilax, small baskets of lilies of the valley, and a beautiful center piece of magnificent yellow tulips, amid green foliage, forming the club.

FRECKLES

Don't Hide Them With a Veil; Re-
move Them With the Othine
Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that

colors, green and gold of the Sterling club.

The guests were seated around the room and served with tea and biscuits of various kinds, which so delight the weary woman, and all were soon chatting and exchanging ideas, in the manner of clubwomen and which does so much to promote true fellowship, charity and good will toward all.

The committee in charge of this delightful affair was headed by Mrs. George E. Bishop. She was ably assisted by Mrs. W. T. Utley, Mrs. W. M. Dillon, Mrs. Samuel Wetzell, Mrs. J. H. Lawrence, Mrs. Woltersperger and Miss Florence Pennington.

Mrs. Wetzell and Mrs. Dillon presided.

In the absence of the recording secretary, Mrs. Mae Brookner Cupp of the Dixon Woman's club was elected secretary pro tem.

The report of the treasurer showed the finances in good condition, and all clubs except one, have retained membership in the district there being twenty clubs in the federation.

The reports of the various committees and of the county vice-presidents denoted that all are doing live work and that the district is keeping abreast of the times.

A. men, who have rendered such splendid services at the Emmanuel church last Sunday evening. Do not miss this service.

Pabst-Earl.

Last evening at 7:30, at the home of the bride, 722 East Morgan street, the Rev. F. D. Altman, pastor of the St. Paul's Lutheran church united in marriage, by means of the ring service, Miss Cora E. Pabst and Walter Scott Earl, both of this city. The ceremony was performed in the presence of only the immediate relatives and was very impressive throughout.

The bride was gowned in a very beautiful blue silk meteor and carried a shower bouquet of pink Killarney roses and lilies of the valley.

The ceremony was followed by a four-course dinner in the dining room, made very beautiful in decoration of American beauty roses and ferns. The center of the table was a fairy land in large baskets of all colors of roses. The guests who were seated at the table were, Mr. and Mrs. H. C. Earl, Mrs. James Earl, Mr. and Mrs. Fred Earl, and Dr. Frank G. Morris, and the bride and groom.

Mr. Earl is of the well known firm of Earl Grocery company and is one of the most popular business men of this city. Mrs. Earl came to this city about a year ago and since then has acquired many dear friends who all join in wishing them both "the best of everything."

THERE ARE MANY CENTRIES.

County Superintendent, L. W. Miller reports that a goodly number of responses are being made to the request for entries in the vegetable contest which will be conducted by the Lee County Fair Association, indicating that the school children of Lee County are going to take an active interest in the competition which will be opened up to them.

EXHIBIT OF SCHOOL WORK ON MAY 21ST.

PARENTS URGED TO VISIT THE
SCHOOLS AND INSPECT WORK
CHILDREN HAVE DONE.

The annual exhibit of the school work of the pupils of Dixon schools will be made in the different buildings during the afternoon of Thursday, May 21st.

All possible kinds of school work will be exhibited. There will be lessons in arithmetic, grammar, penmanship, drawing, sewing, weaving, manual training, etc.

The exhibit will be ready for inspection by 1:30 o'clock on next Thursday, and will be open as long as the coming of visitors justifies.

Short programs will be given in some of the schools after which the pupils will be dismissed for the afternoon. Schools not having programs will be dismissed at noon.

Parents are urged to give this half day to the schools. The exhibit is of unusual merit and I trust parents will show their appreciation of the efforts of pupils and teachers by visiting it.

DEMENTTOWN

We are all heartily in favor of the oiled streets, but we'll be gosh dinged if we see the sense of sneering at on both sides of a thoroughfare at once and then neglecting to put sand on the surface, as was done on the Ave.

Warning — The Girl Scouts are planning another trip of "inspection" of the water works some evening during the coming week.

Remedy Suggested.

The tall man entered the drug store and taking out his watch to compare it with the clock, he remarked, "I think my watch has run down."

"Let me recommend our sarsaparilla, sir," said the clerk at the soda fountain.

The Mean Thing.

She (after their quarrel) — Of course you will want the ring back?
He—No, you may as well keep it. No other girl of my acquaintance could wear it at all except on her thumb.

GRADUATION AT FRANKLIN TONIGHT

COMMENCEMENT EXERCISES TO
BE HELD THERE—AT WAL-
TON THURSDAY.

The graduating exercises of rural schools in the vicinity of Franklin Grove will be held at Franklin Grove this evening and the prospects are for one of the most enjoyable affairs of this nature in the history of the village. A class of 20 pupils will receive diplomas and Prof. F. D. Chadwick of the Steward schools will deliver the address of the evening.

At Walton Hall.

The commencement exercises of the Marion schools, held at St. Mary's hall in Walton Thursday evening, were decidedly happy. The hall was tastefully decorated and was packed to capacity with friends of the schools. The address by Attorney J. Cantlin of Rock Falls was highly enjoyed, while Father Conley delighted the audience with readings.

CLOSES SHOP SUNDAY.

Because of the serious illness of his father, Henry Apt of the Chicago Meat Market will close his place of business Sunday and will spend the day with him in Chicago. All orders taken on Saturday for Sunday delivery will be delivered on Sunday, but the shop will not be open on Sunday.

Ask your grocer for Keithley's home grown lettuce, 25c per lb., Saturday. My, but it's tender, fresh and crisp!

Remembered Lesson.

A young man walking through a foreign quarter stopped with an amused smile in front of a small eating place, the window of which had a sign, "Lam Stew." The proprietor, from his doorway, asked what the joke was, and the young fellow explained about the missing "b" in "lamb." The next day he found that while the bill of fare had changed the spelling lesson had not been forgotten. The proprietor was now offering "Clamb Chowder." — Everybody's Magazine.

KEEP IN MIND WHEN WRITING

If One Would Be Classed as a Well-come Correspondent These Must Be Remembered.

Be yourself, strive for the expression of your own thoughts, write with all the force of your personality, and you will be projecting your mind on the mind of the friend who is to draw delight from your letter. Write with the conscious wish to express truthfully and well that which you have to say, abjure slovenly makeshift, and just as strongly, the self-consciousness which keeps one eye on the purpose in hand and one on effect.

Remember always that there is the possibility of publicity for your letter, and if you have malice, cruelty, or unchristianity in your mind, at least see that you do not commit your feelings to paper, to your possible confusing at some later date, when kindness has replaced your former harsh judgment.

Remembering all these things, you will have no need for the services of a complete letter writer. Guided by sincerity and truth, you may proceed to give your thoughts the graven permanence of writing.

The Cat in Kitty.

Stroke kitty the wrong way and she spits. Yet she sleeps in the kitchen by the fire. What of it! The very lap of her mistress has not counted with the cat in her. The cat in kitty is wild to the tip of her twitching tail. Watch her—if she hasn't already scratched you—as, crouched in the grass, she makes her way toward some unsuspecting bird, advises Dallas Lore Sharp in the Atlantic. A shiver runs through you. You can feel her claws—so tiger-like is she, so wild and savage, so bent on the kill. Or come upon her at dead of night in some empty, dimly lighted alley. She is on the prowl. The light of the narrow, gulchlike street falls on her with a startling largeness and marks her silent shadow on the flags. She moves stealthily out to the corner, and, well within the shadows, stops to glance furtively up and down the open cross-street. But the people are all within the shut doors. There is no one for her to devour.

CARELESS HITCHING.

It has been brought to the attention of the Telegraph that some people carelessly hitch horses and teams so that their rigs obstruct street crossings. People should be thoughtful enough of others not to indulge in such a practice. When you tie your horse so that no part of the outfit can possibly be in the path of road or sidewalk traffic.

Quite a number of people make it a practice to tie their horses to the iron poles that serve as trolley supports for the street car lines. This is a dangerous thing to do and may easily result in the death of a horse from electric shock, for a horse cannot stand much electricity, and being iron shod, with four feet on the ground, which may be wet, the animal, coming in contact with the iron post which may become charged with electricity from the wires overhead at any time, conducts the electricity through his body to the ground, with disastrous effects to the horse.

Many will say, and in a way justly, that hitching posts are rare and the electric company's posts are about the only places to tie to, but perhaps our city council will give us some hitching posts in an out of the way place some day so that the danger and annoyance of tying in the business section will be done away with.

HELP SPREAD THE GOSPEL.

Watch for the "Acquaintance Issue" of the Telegraph. Don't fail to send yours to an out of town friend after you read it and, better still, order some extra ones and mail them out. If you send them to old Dixonites, it will be a rare treat to them to look upon the old familiar faces and scenes and learn of the progress Dixon is making, and if you send them to people who are not acquainted with Dixon you will be spreading the gospel and putting them in touch with the kind of a city they should come to live in. Extra papers may be had at this office for a nominal sum.

VILLA'S COMPLAINT.

"Pancho" Villa declares that if the United States will lift the embargo on arms he can easily finish his job of finishing Senor Huerta. He says that the idea of his later using those arms to fight the United States is ridiculous and farthest from his thoughts. We don't have much faith in "Pancho," with his angelic smile, but we believe he is right in figuring that he would not get very far in a war with Uncle Sam and there is an element of good sense in giving him the means to lick the old Indian at Mexico City. It would mean one more Mexican out of the way, anyhow.

LIGHTS FOR ALL VEHICLES.

The law that makes automobiles carry lights is, of course, proper. It could be supplemented by a vigorously enforced law that would make necessary lights on all vehicles that move after dark. Many an accident could be avoided if every carriage and every bicycle carried a light. Such a law enforced in Dixon would have a good effect. Children ride their wheels after dark and they are in constant danger from collision with autos or rigs. They should be made to carry lights for their own protection.

Do your share to help the Dixon Marine band and insure band concerts for Dixon this summer by buying a tag on Band Tag Day. It is a matter of public interest and should have the support of everyone who has an interest in Dixon.

The city of Chicago has made a good move in putting restriction on the sale of fire arms. Up to date the price of a life in Chicago has been the couple of dollars that it took to buy a second hand revolver in a pawn shop.

It begins to look as though "there ain't a-goin' to be no war," and if such proves the case, these fellows who have been howling for invasion and bloodshed will have to take off their hats to the abused Mr. Wilson.

They spend a lot of money each year improving the automobile models, but we fail to notice much improvement in the chauffeurs.

CURRENT COMMENT

Chicago Tribune:—The scientific folk who are suggesting, with smiles, that the Colonel did not find and unknown river are intrepid or forgetful of controversialists and are opening up the prospect of a busy summer. Before the Colonel is hitched in double harness with Doctor Cook there will be a battle, and the people who treat the discovery lightly or intimate that a well known stream was found, are likely to be pitched headlong into the membership of a well known organization founded by the Colonel.

Elgin News:—The state game and fish commission is doing what it can to protect birds at fish from utter extinction. In several counties preserves have been established and

stocked with quail, prairie chickens and other game birds. They are carefully guarded and the game will be protected as far as possible from marauders with dog and gun. While good may be accomplished by this means, still what Illinois needs more than anything else in this line, is a stricter enforcement of the laws that exist.

Bloomington Panagraph:—The new owner of the Inter-Ocean and Record-Herald, has announced that the editorial policy of the one newspaper that is to take their place will be independent. Here again is a significant sign of the times. The day of the "party organ" newspaper is past. It is coming to be recognized more and more that the province of a newspaper is to serve the people of the community as a whole and not to attach itself com-

So many men now wield the pen, who should be herding cattle. So many shirks who should be clerks now make the welkin rattle! So many skates are filling dates as Hamlet or Othello, who ought to rush and get a brush and paint a cowshed yellow! I go to church and take my perch where I can hear the speaking, and then the priest knocks galley east my comfort, with his squeaking. I concerts seek, say twice a week, to hear some music charming; then tuneless lays a discord raise—they should be busy farming. And there are dames who jar our frames, with their "dramatic readings;" we wish they'd quit, and sew and knit, but they resist our pleadings. Of eleven men it seems that ten to wrong trades are committed; we seldom find a man whose grind is that for which he's fitted.

Thus knights and peers are auctioneers and blacksmiths are musicians, and gifted bards are spading yards, and grocers are physicians. Yet let's be gay, the livelong day, and dance and sing and frolic; it will not help to kick or yelp, or have eight kinds of colic.

Such excellent newspapers as the Springfield Republican, the New York Times, the New York World, are classed as independently Democratic, but is very evident that they are more "independent" than "Democratic." The Chicago Daily News and the Kansas City Times and Star are other conspicuous examples of successful, independent newspapers. The change that has been wrought in recent years in this regard is truly remarkable and it is unquestionably a change for the better.

GOVERNOR ASKED TO QUIT OFFICE

Senate Resolution Requests Him to Quit Executive Office for Good of State.

MINERS REFUSE TO TESTIFY

Leaders of Coal Strikers Will Not Respond to Subpoenas to Appear Before Court-Martial, Declaring it a "Whitewash."

Denver, Colo., May 15.—A resolution calling upon Governor Ammons to retire from office was introduced in the senate by Senator Robinson. The resolution did not use the word "resign," but requested him "to retire from office of governor for the good of the state."

The resolution charges that the governor, in spite of having supreme executive power and full control of the military forces, "has been unable to preserve the peace, execute the laws or protect the lives and property of the citizens."

The resolution recites the cost from public funds already, with the end not in sight, and says concerning the governor, "The strong animosity against him and the doubt in the minds of many people of his ability to perform the duties of his office will make it very difficult, if not impossible, for the governor to preserve the peace, execute the laws or protect the lives and property of the citizens." Senator Adams moved for an immediate consideration, but under the rules the resolution went over at the request of Senator Robinson.

Miners Refuse to Testify.
Declaring that a "whitewash" has been arranged, national, state and district leaders of the striking coal miners will not respond to subpoenas to testify before the state military court-martial no win session near Golden to try guard officers and privates in connection with the destruction of the strikers' tent colony at Ludlow, where nearly a score of men, women and children lost their lives. Labor leaders insist the officers in charge of the court-martial are obsessed with militarism and that the investigation is not being conducted along impartial lines.

Says Troops Fired Tents.
The state militia fired directly into the tents at Ludlow where two women and 11 children were suffocated by fire and smoke April 20, according to the admission by First Lieut. Maurice C. Bigelow, one of the chief witnesses for the state soldiers before court-martial at Golden.

Bigelow is first lieutenant in Company B, Colorado National Guard. He declared that the tents were not fired upon until after the strikers had attacked the militia.

REPORT IS DENIED.

A report that a student from the R. R. M. A., in this city attempted to escape and was chased through the city and captured after a fight, is denied by the officials of the institution. It is said that the boys were in fun and that the affair was not the serious one that it was pictured.

SAUERKRAUT DAY.

Possibly it would be hard to believe that one town of this great country did not celebrate the Fourth of July, but there is one bustling little town in Iowa, where the glorious Fourth means nothing but the turning over of another leaf on the calendar. This is the town of Ackley, which has a curious local holiday that possibly no other city of the United States celebrates. The people of Ackley called their gala day, "Sauerkraut Day," and the people of the vicinity for miles around gather there, attracted no doubt by the free sauerkraut and "weineursts" and other edibles supplied by the village farmers. The celebration takes place on September 22nd.

THINGS EVERY BOY WILL DO

Standards of Conduct Have Remained Unaltered Through All the Ages.

Instituting a comparison between boys and girls, in which it correctly states that the girl of today participates very little in household work and does practically nothing to reduce expenditure, the Minneapolis Tribune states:

"Boys have not reached that stage of civilization which afflicts girls. Boys can be set to amuse themselves just as they could in more primitive times."

Boys, indeed, offer a fixed standard of conduct, which the mutabilities of thousands of years, including divergence of race and climatic conditions, have not been able to alter. We see the same characteristics in the boy of the slums, up to a certain age, that we do in the son of the millionaire. It is only when boys grow up that they yield to environment and habit.

Here are some of the things common to every boy which civilization has not been able to affect:

Every boy will fight at the drop of the hat.
Every boy hates to be dressed up.
Every boy hates girls.
Every boy will lie to save himself from punishment.
Every boy throws stones.
Every boy says naughty words.
Every boy will associate with any other boy he likes, regardless of anything, such as money, position, etc.
When, say, up to twelve, a boy does not conform to these rules, there is something the matter with him. Regarded from the standpoint of the other boys, he is "No good!"—Life.

CHINESE PIRATES PLUNDERED SHIP

BOLD PIRACY TOOK PLACE ON THE HIGH SEAS OF THE ORIENT.

SECURED LESS THAN \$10,000

Work of Robbers Was Bold Enough To Recall the Old Days of Captain Kidd.

(Associated Press.)
Canton, China, May 15.—Ordinary acts of piracy, which occur frequently in the rivers and canals of this section, were completely eclipsed when the Norwegian steamship, Childar, was plundered on the high seas.

It was bad enough to recall to western world the days of Captain Kidd, 200 years ago, and it was a rare case, even for these waters.

The number of foreign warships constantly cruising up and down the Chinese coast and the fact that many of the merchant ships carry rifles and ammunition generally deter the Chinese from such acts of boldness, for they are given short shift when caught. In the early days of the British settlement of Hong Kong scores of pirate junks were captured and sunk. There are records of forty and fifty being sent to the bottom in one day.

The Childar was captured in a very simple way. About fifty pirates went aboard this ship at Hong Kong, as ordinary steerage or "deck" passengers, bound for places up the coast. There being altogether 2,000 Chinese making the journey, no notice was taken of them.

They were evidently a little nervous over the enterprise, and soon roused the suspicions of the bond fide Chinese passengers by their restlessness and earnest conversations in little groups. Seeing that they were being watched, they put their plans in execution sooner, evidently, than they had intended, but with complete success.

About forty miles out of Hong Kong, they wiped out their revolvers and rushed the officers. There were six white officers, and none of them were armed or within reach of weapons. The second officer, who was on the bridge, tried to give the alarm to the others below and was promptly laid senseless with the butt of a pistol. Otherwise no bodily injury was done.

On their arms, so they would know one another, the pirates wore white bands, similar to those worn by the Chinese revolutionists two years ago. There were characters on the bands, the translation of which is said to be "Money Comes Easy."

Four of the officers were tightly bound and placed in the auxiliary wheelhouse at the stern of the ship, while the second and third engineers were left free to work the engines under the direction of the pirates. Pirate navigators assumed control of the bridge and gave the proper signals to the engine room. A very careful course through dangerous shoals was steered, until the ship put into a little bay, known as Bias bay. There, two junks, which had evidently been waiting the ar-

rival of the Childar, received the collected money and valuables which had been taken from the ship, the officers, and the passengers. Even the uniforms of the officers and the good clothes of the Chinese passengers were taken and almost all the brass fittings of the ship. In all, the ship lost over \$10,000 in cargo, valuables and damages.

MALICE IN HOST'S REMARK

Even Thick-Skinned Man of Wealth Could Hardly Fail to Understand the Insinuation.

It was probably only Robinson's wealth that had allowed his intrusion in the very select shooting party. He was certainly quite the worst shot that had ever happened in the neighborhood, and everyone was determined after the first day that either he should retire or that on the morrow he should have the moors to himself. Blissfully unconscious of the impression he had produced, he was talking very big after dinner.

"By Jove, yes!" he remarked, in reminiscent mood. "In my young days I brought down a grizzly in the Rockies. They told me it was the biggest they had ever seen." His host leant forward very quietly. "You don't say so," he observed, with glassy eye. "And what were you aiming at?"

Distance in Bavaria.
In the Bavarian highlands signposts along the roads, instead of stating the number of miles or kilometers to the various villages, give the amount of time which the average pedestrian will supposedly take to traverse the distance, an exchange states. This is merely an official expression of the very general custom of the peasants in the region, who invariably tell inquirers on the roads not how far it is to a place, but how long it takes to get there.

For instance, one asks: "How far is it to Oberammergau?"

"A small half hour," will be the answer, or perhaps "A good half hour" or "A big half hour."

Which is puzzling until the stranger learns that a "small half hour" means 25 minutes, "a good half hour" 30 minutes and "a big half hour" 35 minutes.

Statue of General Li.
A bronze monument is to be erected to Gen. Li Yuanhung, vice-president of China, on a commanding site overlooking the meeting of the Han and the Yangtze rivers, where Wuchang, Hankow and Hanyang unite to compose the great "triple town." Here it was that General Li won his laurels at the head of the army of Chinese Republican patriots and later as the greatest of all the tutus solidifying the enfranchisement won on October 10, 1911. It is one of the most magnificent prospects on the Yangtze, China's great waterway, and the monument to be set up will be a bronze statue in the American style, marking the new regime's acceptance of the latest ideas in commemorative art.

Supervised Play.

During the past few years this idea of organized and supervised play has had a wonderful spread. It has developed into a world movement; there is not a civilized country in either hemisphere that has not adopted the scheme upon a more or less extensive scale. Three other cities in Maryland, besides Baltimore, now maintain summer playgrounds, but the towns and villages have not yet fully awakened to the significance of the movement. Every town in the states with a thousand population ought to have a playground with sports organized and directed in accord with the ideals of the national association.—Baltimore Star.

WEST BROOKLYN NEWS

You're invited to West Brooklyn on Saturday evening, May 23rd, 1914.

Henry Halboth was in town transacting business on Monday afternoon.

J. U. Weyant of Dixon, a member of the F. X. Newcomer company, visited the local bank on business matters Tuesday pertaining to their burglary insurance. The bank always carries plenty of burglar insurance to protect their customers from all such losses.

Mr. and Mrs. William Halbmaier were visitors in town Tuesday on business.

The Misses Anna McCormick, and Kathryn Long with Messrs. George Gehant and C. P. Henkel motored to Dixon and Sterling Sunday in Mr. Gehant's auto.

The heavy rain on Sunday night caused such an overflow of water in town that at least a dozen cellars are reported to have been filled with water for a short time. The rain fell in such torrents that the tide could not handle the surplus and it thus had to find its way to the low places in cellars until the tide could find the room for it. No part of town was exempt for it seems that cellars were visited by the water in every portion. The rain must have been in the nature of a cloudburst here.

Joseph and John Galisboth were in town transacting business on Monday.

The boys report a fine market in Chicago the day they placed their two carloads of hogs and are well pleased with their investment.

The lightning during the storm on Sunday night struck the corn crib belonging to John Dingus and caused considerable damage to the building.

Mathias Haub Jr. and H. P. Gehant returned home on Saturday evening from a real estate inspection trip to Michigan.

The workmen for the Illinois Northern Utilities company were in West Brooklyn on Tuesday repairing the damage done on the company's lines in and about town by the storm Sunday night and Monday. The poles leading into town from the north, which pass over the hill, were badly leaned

to the westward, although the service was not hindered by the irregularity.

The West Brooklyn Volunteer Fire company held their regular monthly meeting in the city hall on Monday night. H. H. Danekas was elected to membership to take the place of T. B. Barlow, who has moved to Amboy.

John E. Buzzer was here Monday afternoon.

Mr. and Mrs. George Ressler and family motored to Mendota on last Sunday and visited with their folks during the day.

Geo. Adams was here Tuesday forenoon.

Mr. and Mrs. Martin Halbmaier and Mr. and Mrs. Olive Gehant motored to LaSalle, Peru and Starved Rock on Sunday in the former's new auto.

A band concert will be given by the local band on the street Saturday night, May 23rd, to which every one is welcome. After the concert a dance will be held in the opera house until 11:45. Remember the date and endeavor to attend.

Alex Jeanblanc was here Monday afternoon.

David O. Fairchild was out to his farm this week using dynamite on place. Mr. Fairchild is very anxious to improve the farm as much as possible and is not in a hurry in shaping things up.

Dr. C. J. Kiefer is kept very busy these days attending the sick horses in the vicinity. On Monday night he was out all night long, being called three miles east of Compton on a bad case. Mr. Kiefer is a good veterinarian and every one who calls for him is more than pleased with the services rendered.

Jacob Kessel was in town Tuesday afternoon.

Henry S. Jeanguenat of Compton was a caller in West Brooklyn Monday.

A. B. McCrea returned home Sunday from Missouri where he had been called by the illness of his aged mother. He arrived in time to see her alive but the venerable lady was unable to speak to him. She died the next day. Her body was taken to the old family home in Iowa for burial. Mr. McCrea and family here have the sincere sympathy of the community in their sad bereavement.

Peter Bernickel was in town Monday.

Can you carry your own risk at the small cost of 10 cents per \$100 insurance per month on your corn in the crib? Wouldn't you feel more secure with insurance protection and a policy written by the L. E. Gehant Insurance Co.?

Charles Halley of Viola was here Tuesday morning receiving the congratulations of everyone here upon his recent marriage to Miss Lahman, daughter of Mr. and Mrs. E. E. Lahman. The writer joins with the rest in the congratulations and wishes the newly married couple many years of happy married life.

An anti-treating society has been formed in West Brooklyn by about 35 of the citizens living in town and the surrounding country. The object of the organization is to do away with the treating in saloons and in this way it is figured that much of the intemperance can be done away with. In some states in this country there are state laws forbidding treating and the thing seems to work wonders in these states West Brooklyn folks who

SALTS IF BACKACHE AND KIDNEYS HURT

Drink lots of water and stop eating meat for a while if your bladder troubles you.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia water drink.

wish to try out the idea with a view of improving the conditions so tempting to some people, are to try out the scheme locally and if they find it to be successful they may spread out later on.

John Mahaffey was in town Tuesday.

W. B. Mattingly was in from Mendota gathering eggs and butter from our stores Tuesday.

Paul Halbmaier was here Monday on business.

On Saturday afternoon, May 23, commencing at 1 o'clock sharp, I will sell the entire outfit of my household furniture at public auction. These goods are all first class and they will be sold at your price to the highest bidder without reserve. Please bear in mind the day, Saturday, afternoon May 23rd, 1914, and attend the auction sale. Mrs. S. A. Smith, West Brooklyn, Ill.

John U. Untz was in town Tuesday on business.

C. C. Weber was in town Wednesday.

There was no band practice Tuesday night owing to the absence of several of the members from town. The high school pupils used the opera house instead for practicing.

P. M. Fassig was here Wednesday on business.

Born to Mr. and Mrs. Louis Wiser, a boy. All concerned are doing nicely and Louis were in town Tuesday wearing the smile that will not come off.

George Bauer and wife were here Tuesday.

The baseball season in West Brooklyn will open Sunday when the fast Franklin Grove team will come here for a game. On account of the first game of the season, let a big crowd come out and root for the home boys to win. They need encouragement from the start and every loyal West Brooklynite will be out there at the game tomorrow afternoon shouting cheers to the boys and urging them on in their endeavor to win. Remember, it is the first game of the season in West Brooklyn. Commences at the usual hour, 2:30, Sunday afternoon, May 27th. Let every one attend the game.

Miss Emily Jeanguenat has been engaged to teach the Nells school 2 1-2 miles south of town for the coming year.

Mrs. Michael Barr and son Frank were visiting friends in town Wednesday.

Mrs. S. A. Smith invites you all to her auction sale at her home in town on Saturday afternoon, May 23rd, at which time she will sell all of her household goods and this will be your opportunity to equip at a very small cost.

The well question was resurrected again this week when a man of well known ability was in town on Monday and says he can put the old well in good shape again with but very little cost. He says the work is simple and wants the city council to give him the chance to show the people that the old well can be fixed. Many of our citizens have always contended that this could be done and it now seems as though their guess was correct. Here's hoping this well man knows whereof he speaks and will soon have the opportunity to prove his words.

HEROES ARE BURIED

Remains of Vera Cruz Dead Are Laid in the Tomb.

Hundreds of Thousands Witness Funeral of Chicago Lad—Several Others Are Interred.

Chicago, May 15.—Nation, state and city joined at the bier of Sammy Melsenberg to honor the memory of the young Jew who died with the first shots fired at Vera Cruz. It was an unusual demonstration—unusual in that the honors accorded great military leaders and the ancient rites of the Jews intermingled in the Anse Kneath Israel synagogue, Douglas boulevard and Roman avenue, where the services were held.

A large floral offering sent by President Wilson lay on the casket, and represented the nation's reverence at the obsequies.

Governor Edward F. Dunne personally paid tribute to the adopted son of Illinois; United States Senator James Hamilton Lewis, representing the second greatest governing power of the country, eulogized the dead hero.

From 200,000 to 300,000 persons lined the streets to view the military procession and do honor to the dead marine.

Coulterville, Ill., May 15.—Thousands of residents of Coulterville and the surrounding territory paid tribute to Louis Frank Boswell, one of the nineteen Americans killed in Vera Cruz, at his burial here. The body was placed in the town park and there viewed by the crowds.

A feature of the funeral service was the singing of "America" by 300 school children, the girls in white, the boys in blue, and each carrying a small flag. At the cemetery "taps" was sounded by a former companion of the dead sailor. A large American flag was placed over the grave and the school children planted 300 tiny flags on it.

Other victims buried during the day were Daniel A. Haggerty, Walter L. Watson and Rufus E. Percy, in New England; Francis P. DeLowry, in Pittsburgh; Frank Devorack, in Blakesburg, Ia.; Esau H. Frolichstein, in Mobile; Randolph Summerline, in Wilcox, Ga.; Elgie C. Fischer, in Forest, Miss.

EX-VICE-PRESIDENT VERY ILL

Is Taken to Presbyterian Hospital on Order From Dr. Martin D. Hardin.

Chicago, May 15.—Former Vice-President Adlai E. Stevenson is in Chicago for medical treatment. He is at the Presbyterian hospital. He was staying at the home of Rev. Martin D. Hardin, pastor of the Third Presbyterian church, where he arrived from his home in Bloomington, Ill. "Mr. Stevenson's condition is not at all critical," said Dr. Hardin. "He has been in poor health for some weeks and finally decided to come to Chicago for treatment by specialists. I do not know the exact nature of his illness." Mr. Stevenson is seventy-nine years old. He was vice-president of the United States from 1893 to 1897.

Commercial Travelers Meet. Chicago, May 15.—The United Travelers opened their annual convention here, more than 2,000 traveling men and their wives being present. First day's session was devoted to various topics concerning salesmanship. Delegates to the national convention at Columbus next month, will be selected Saturday.

Folk Brings Out That Duebills Given for Stock Were Used in Peculiar Way.

'CONSTITUTED A SLUSH FUND'

Attorney Declares It Was Hoped to Corrupt New York City Aldermen, Judges and Police Officials—Morgan, Mellen's Friend.

Washington, May 15.—Get what you want when you want it and use the devil to turn the trick if you think it necessary.

This admission was made by Charles S. Mellen, former president of the New York, New Haven & Hartford railroad, in beginning a remarkable line of testimony at the interstate commerce commission's inquiry into New Haven affairs.

Mr. Mellen was excused after delivering his preface to a tale that promises to be one of the most sensational contributions to the tomes of modern finance. He went to Massachusetts to get more papers and records and will take the stand again next Tuesday.

Wanted Devil's "Pull." "I wanted to reach the people that it was necessary to reach," said Mr. Mellen under oath, referring to the granting of a proposed charter to the West Chester road, which the New Haven had acquired. "I wanted to reach the devil or anybody else who could amend the charter."

No such sensation has been created by the expressed attitude of financial magnates or industrial captains since the late Mr. Baer, president of the Reading railroad, made his celebrated statement about the "divine right" of people in his class.

Many persons see the same spirit in the Mellen statement regarding utilization of the devil's influence as was expressed by "Divine Right" Baer.

Bares Huge "Slush Fund." Mr. Mellen bared the working of a \$1,200,000 "slush fund," whereby the New England traffic monopoly gained control of priceless franchise concessions in New York city "through persons of influence." The West Chester road is a high-speed standard electric line, over which the New Haven now sends its trains from New York city into New England.

Joseph W. Folk, chief counsel for the interstate commerce commission, through questioning indicated that he will attempt to show that some of this \$1,200,000 fund went to influence New York courts. Mr. Mellen said he had no idea who got the money, asserting that the transaction had been negotiated with the late Thomas J. Byrnes, one-time inspector of police of New York city, who agreed to obtain 13 different "amendments" to the West Chester charter from the city officials.

Mr. Mellen testified that he made payments from the fund to persons he didn't know, but who looked as "though they had come from the East side."

He told how the New Haven gave 8,000 shares of its stock, then valued at \$1,200,000, for 24,000 shares of West Chester stock, which he considered "worth ten cents a pound," and which he suspected had been "issued to contractors who placed it where it would do the most good."

Anxious to Tell Story. Mr. Mellen smilingly gave his occupation as "assistant to the interstate commerce commission" and evidently was anxious to tell his story.

Follows Morgan Policy. Mr. Mellen related how he had been promoted from the presidency of the Northern Pacific to that of the New Haven by the late J. Pierpont Morgan, and said he himself was in accord with the New Haven policy of buying trolley and steamship securities.

In relating the details of the West Chester deal he said that the 8,000 shares of New Haven stock had been placed in escrow with him, and that often when West Chester stockholders asked for their redemption value he did not have the cash and could not make out checks or give them the New Haven stock. On these occasions, he said, he gave them personal duebills. After he resigned from the New Haven he had redeemed about one hundred and fifty thousand dollars' worth of these due bills in cash, he said, but there still were outstanding against him the equivalent of \$50,000.

This mass of proof includes over 30,000 recommendations. Dixon is no exception. Here is one of the Dixon cases.

John Salzman, 103 Artesian avenue, Dixon, Ill., says: "I had back ache a great deal and pains across my joints. My kidneys did not act regularly and I felt miserable in every way. Finally I used Doan's Kidney Pills procured at Leake Bros. Co's. Drug Store and they did work, relieving me. I keep them in my house and whenever I take them, they help me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Salzman had. Foster-McLburn Co., Props., Buffalo, N. Y.

ORDER TROOPS READY

U. S. Officials Prepare Artillery for Service.

South American Mediators Hold Last Conference at Washington Before Leaving for Canada.

New York, May 15.—Indicative of the first movement of troops toward Mexico from this locality in the department of the East, orders were issued to the coast artillery from Maine to Galveston to be prepared to move at a moment's notice. There are approximately six thousand men in this service, divided into 78 companies and to be formed into three regiments as provisional infantry.

Col. John D. Barrette, commander of the artillery district at Fort H. G. Wright, at the eastern end of Long Island sound, received his notification at midnight. Officers' call was sounded at his fort and at Fort Terry, across the water, and a council was held. Major P. H. McAndrews, surgeon at Fort Terry, issued a call later for volunteers for the hospital corps. Arrangements have been made with the railroads for sudden transportation of these troops. Ammunition and supplies in enormous quantities have been going out of this port for the last few days.

Washington, May 15.—The last conference of the South American mediators was held during the day, and later it was announced that Ambassador Da Gama would start today for Niagara Falls, Ont., the scene of mediation negotiations next week. Minister Naon will leave tonight and Minister Suarez Saturday.

The Spanish ambassador called at the state department to see what could be done for 800 Spaniards ejected by the constitutionalists from Torreon. He had a bill to present for \$20,000,000 worth of Spanish-owned cotton, alleged to have been confiscated by the constitutionalists.

ADMITS LIES IN BECKER CASE

Gambler Says Story to Police Was Untrue and Affidavit False.

New York, May 15.—Counsel for Charles Becker, the former police lieutenant, on trial charged with the murder of Herman Rosenthal, the gambler, obtained from Kridge Weber, described as the financial banker of the plot that resulted in the killing of Rosenthal, admissions that he had lied to Deputy Police Commissioner Dougherty, had said things during his direct examination earlier in the day that he omitted the first time Becker was on trial for his life, and had made affidavits that he swore were false.

Mention of the death of the four gunmen in the electric chair affected the witness almost to the point of tears. In its essential points the story he told of the murder conspiracy and its results remained unchanged by cross-examination.

PANAMA CANAL IS USED

Barge Traffic for First Time Through Waterway.

Washington, May 15.—For the first time in history water-borne craft are now passing through the Panama canal. A steady stream of barge traffic is now passing through the world's newest man-made waterway. This information was received at the headquarters of the Panama railroad. Colonel Goethals has not yet reported when the canal will be open for merchant shipping, but the understanding at the office of the isthmian canal is that marine traffic could commence now, if necessary. Barge traffic was begun several days ago, but official notification has not yet been made to the government.

WILL LEAVE CAPITAL SOON

President's Family Go to Summer Home Next Month.

Washington, May 15.—Mrs. Wilson, accompanied by Miss Margaret Wilson, will go to Cornish, N. H., for the summer shortly before July 1. It is expected that both Mrs. Francis B. Sayre and Mrs. William Gibbs McAdoo, the White House brides of recent date, will join their mother. If Mexican and congressional tangles detain the president in Washington he will make flying week-end visits to Cornish during July and August. The White House family will occupy Harlakenden again this summer.

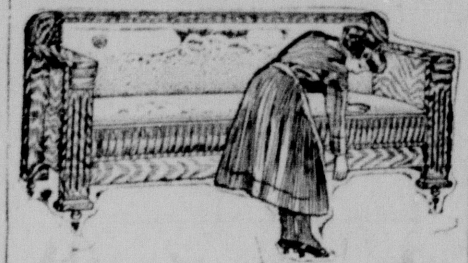

CANAL HAS COST 2,190 LIVES

Victims at Panama Total More Than Those in War.

Washington, May 15.—Nearly 2,200 workers of the Panama canal died from accidents and fevers between May 1, 1904 and March 31, 1914, according to statistics read by Representative Young of North Dakota in the house. The total of 2,190 victims, Mr. Young asserted, was greater than the mortality from wounds and on the battlefield in the war of 1812 and the Mexican war combined; the revolution or the Spanish-American war.

Carranza Aid Reaches Canada.
Toronto, May 15.—Jose Vasconcelos, a Mexican attorney, arrived here as representative to the Canadian government of Gen. Venustiano Carranza, commander-in-chief of the Mexican revolutionists.
